

RUO — RESEARCH USE ONLY · FOR LICENSED HEALTHCARE PROFESSIONALS ONLY

AGE|RECODE®

Advanced peptide science for medical spas, integrative clinics, and licensed wholesale accounts. Precision-formulated oral peptide capsules and professional-grade topical skincare.

| | | | | |
|----------------|-------------------|-------------------|----------------|-----------------|
| RESULTS-DRIVEN | CLINICALLY-TESTED | cGMP MANUFACTURED | FDA-REGISTERED | 24-MO STABILITY |
| CRUELTY-FREE | 100% VEGAN | PARABEN-FREE | ALCOHOL-FREE | ALL SKIN TYPES |

GHK-Cu + SNAP-8 ADVANCED MULTI-PEPTIDE SERUM

SECTION 1 · TOPICAL SKINCARE

FIGHT BACK AGAINST AGING

Advanced Multi-Peptide Topical Serum

1.0 FL. OZ. (30 mL) · Use Daily AM & PM · For Clinical Dispensing & Professional Recommendation

The only clinician-grade serum combining 1% GHK-Cu copper peptides with 1% SNAP-8 neuromodulatory peptides — delivering complementary anti-aging mechanisms in a single formulation: collagen remodeling plus micro-contraction reduction. Formulated specifically for licensed practitioners and medical spa dispensing.

ANTI-AGING

FIRMING

REPAIRING

SOLUTIONS FOR

- Fine Lines & Wrinkles
- Loss of Firmness & Elasticity
- Early Signs of Aging
- Dull or Tired-Looking Skin
- Rough or Uneven Texture
- Enlarged Pores
- Dehydrated Skin
- Excess Oil
- Uneven Skin Tone
- Reduced Elasticity
- Post-Procedure Recovery
- All Skin Tones & Types

SOLUTIONS FOR

- FINE LINES
- WRINKLES
- EARLY SIGNS OF AGING
- LOSS OF FIRMNESS
- REDUCED ELASTICITY
- EXCESS OIL
- DULL OR TIRED LOOKING SKIN
- ROUGH OR UNEVEN TEXTURE
- ENLARGED PORES
- DEHYDRATED SKIN
- UNEVEN SKIN TONE

KEY INGREDIENTS

Key Ingredients in MULTI-PEPTIDE SERUM

1% COPPER PEPTIDES

- Enhances skin repair and regeneration.
- Stimulates collagen and elastin production.

SNAP-8

- Provides fast-acting smoothing effects.
- Helps prevent wrinkle formation over time.

| 1% COPPER PEPTIDES (GHK-Cu) | 1% SNAP-8 NEUROMODULATORY PEPTIDE |
|---|--|
| <ul style="list-style-type: none"> • Enhances skin repair & regeneration • Stimulates collagen & elastin synthesis • Supports wound healing & skin renewal • Potent antioxidant & anti-inflammatory • Improves skin density & firmness over time | <ul style="list-style-type: none"> • Fast-acting expression line smoothing • Reduces neuromuscular micro-contraction • Up to 34% wrinkle-depth reduction in 30 days • Helps prevent wrinkle formation long-term • Safe & effective for all skin types |

HOW TO USE

CLEANSE

Start with a thoroughly cleansed face. Pat dry to maximise serum absorption.

APPLY

Apply 5–6 drops to face, neck & décolletage. Gently spread with fingertips until fully absorbed.

MOISTURIZE

Follow with a gentle moisturizer and/or broad-spectrum sunscreen (AM use).

USE DAILY — AM & PM

Use Daily SIMPLE & EASY TO USE

CLEANSE
Start with a clean face.

APPLY
Apply 5-6 drops to face, neck and décolletage. Spread with fingertips until fully absorbed.

MOISTURIZE
Follow with a gentle moisturizer and/or sunscreen.

CLINICAL RATIONALE & PRACTICE OPPORTUNITY

| DUAL-TECHNOLOGY | NEUROMODULATOR SYNERGY | POST-PROCEDURE RECOVERY |
|---|---|--|
| Combines GHK-Cu copper peptides with SNAP-8 for complementary anti-aging — collagen remodeling plus | Ideal adjunct to Botox/Xeomin/Dysport. Extends neuromodulator results, smooths between treated areas, | Safe and effective after microneedling, RF, laser, chemical peels, and PRP/PRF facials. Reduces redness and accelerates skin recovery. |

micro-contraction reduction for comprehensive results.

softens micro-lines for a more natural expression.

PROTOCOL TIP

Bundle with RF microneedling, PRP/PRF facials, or laser as a take-home post-procedure recovery kit for your patients. Pairs with REVIVE™ for accelerated regenerative aesthetics. Ideal for medspa dispensing programs and clinician-recommended take-home protocols.

FORMULATION STANDARDS & FULL INGREDIENT LIST

| | | | | | | |
|----------------|-------------------|--------------|-------------------|--------------|--------------|----------|
| Results-Driven | Clinically-Tested | Cruelty-Free | Peptide-Optimized | Paraben-Free | Alcohol-Free | USA Made |
|----------------|-------------------|--------------|-------------------|--------------|--------------|----------|

FULL INGREDIENT LIST

Water, Glycerin, Butylene Glycol, Lactobacillus/Soybean Fermentation Filtrate, Trehalose, Panthenol, 1,3-Propanediol, Seawater, Phenoxyethanol, Triethanolamine, Carbomer, Caprylyl Glycol, Tripeptide-1 Copper, Ethylhexylglycerin, Hexanediol, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, 1,2-Pentanediol, p-Hydroxyacetophenone, Hydrolyzed Red Algae Extract, Sodium Hyaluronate, PPG-13-Decyltetradecyl Ether-24, Hydrolyzed Collagen, Palmitoyl Tripeptide-5, CI 42090, Acetyl Hexapeptide-8, Palmitoyl Pentapeptide-4, Acetyl Octapeptide-3

RECOVER™ — CELLULAR REPAIR, ANTI-INFLAMMATORY & ANTIOXIDANTS

SECTION 2 · ORAL PEPTIDE CAPSULE · RUO

RECOVER™

Cellular Repair, Anti-Inflammatory & Antioxidants

BPC-157 · GHK-Cu · Carnosine · Licensed Healthcare Professionals & Clinicians Only

RECOVER™ is a next-generation regenerative peptide and antioxidant complex engineered to accelerate tissue recovery, reduce inflammatory burden, and enhance post-procedural healing. Its triad is delivered through a three-phase enteric and micro-pellet release system, enabling coordinated activation of angiogenic, collagen-modulatory, and antioxidant pathways. Ideal for post-procedure protocols in medspa and clinical settings.

CLINICAL INDICATIONS

COMPOSITION PER CAPSULE

- Soft-tissue injury
- Tendon & ligament recovery
- Post-procedure / surgical healing
- Chronic inflammatory states
- High-stress athletic recovery
- Aesthetic regeneration protocols

- BPC-157 — 500 mcg
- GHK-Cu — 2 mg
- Carnosine — 500 mg

60-count bottle = 3-month supply
1 capsule each morning on empty stomach
Cycle: 5 days on / 2 days off

FORMULATION HIGHLIGHTS

| Component | Dose | Purity | Release System | Stability |
|------------------|---------|--------|------------------------|-----------|
| BPC-157 | 500 mcg | ≥98% | Delayed / Micro-pellet | 24 months |
| GHK-Cu | 2 mg | ≥97% | Sustained | 24 months |
| Carnosine | 500 mg | ≥99% | Immediate | 24 months |

MECHANISTIC INSIGHTS

| BPC-157 | GHK-Cu | Carnosine |
|--|---|--|
| Enhances VEGF-mediated angiogenic repair and nitric-oxide modulation; accelerates fibroblast migration and re-epithelialization. | Increases collagen I/III synthesis and downregulates IL-6 via TGF-β pathway, supporting tissue matrix remodeling. | Neutralizes reactive carbonyl species, prevents protein glycation, and stabilizes redox balance. |

SYNERGISTIC PAIRING Pair RECOVER™ with REVIVE™ for enhanced mitochondrial output and ATP-dependent healing. Ideal for post-operative care, orthopedic and sports rehabilitation, aesthetic regeneration protocols, and high-demand recovery programs in licensed clinical settings.

MANUFACTURING & QUALITY

| | | | |
|-------------------------|---------------|------------------|------------------------------|
| FDA-Registered Facility | cGMP Produced | HPLC Purity ≥95% | 24-Month Stability Validated |
|-------------------------|---------------|------------------|------------------------------|

REVIVE™ — ENERGY, METABOLISM & CELLULAR POWER SUPPORT

SECTION 3 · ORAL PEPTIDE CAPSULE · RUO

REVIVE™

Energy, Metabolism & Cellular Power Support

NAD+ · SLU-PP-332 · 5-Amino-1MQ · Licensed Healthcare Professionals & Clinicians Only

REVIVE™ integrates three synergistic mitochondrial activators designed to elevate metabolic capacity, support mitochondrial biogenesis, and mimic exercise-like molecular signatures. Clinically positioned for practitioners managing metabolic health, longevity, and integrative wellness protocols.

CLINICAL INDICATIONS

- Metabolic slowdown
- Chronic fatigue states
- Mitochondrial dysfunction
- Exercise & recovery enhancement
- Weight-management adjunct
- Longevity & anti-aging protocols

COMPOSITION PER CAPSULE

- 5-Amino-1MQ — 50 mg
- SLU-PP-332 — 1 mg
- NAD+ — 250 mg

60-count bottle = 3-month supply
1 capsule each morning on empty stomach
Cycle: 5 days on / 2 days off

FORMULATION HIGHLIGHTS

| Component | Dose | Purity | Release System | Stability |
|-------------|--------|--------|------------------------|-----------|
| 5-Amino-1MQ | 50 mg | ≥98% | Delayed / Micro-pellet | 24 months |
| SLU-PP-332 | 1 mg | ≥97% | Sustained | 24 months |
| NAD+ | 250 mg | ≥99% | Immediate | 24 months |

PHASE RELEASE ARCHITECTURE

| Phase | Component | Primary Action |
|-----------|-------------|--|
| Immediate | NAD+ | Rapid absorption for acute redox restoration and ATP flux |
| Sustained | SLU-PP-332 | Steady ERR- α/γ signaling for mitochondrial biogenesis |
| Delayed | 5-Amino-1MQ | NNMT inhibition for upstream NAD+ amplification and SIRT1 activation |

MECHANISTIC INSIGHTS

| 5-Amino-1MQ | SLU-PP-332 | NAD+ |
|--|--|--|
| Inhibits NNMT, increasing intracellular NAD+ and SIRT1 activation for metabolic optimization and cellular longevity signaling. | Activates ERR- α/γ transcriptional pathways to drive mitochondrial gene expression and fatty-acid oxidation — a true exercise mimetic. | Replenishes redox potential and improves ATP flux, essential for oxidative phosphorylation and cellular energy production. |

SYNERGISTIC PAIRING Combine with RECOVER™ for tissue recovery and REBALANCE™ for cognitive and neuroenergetic support. Together they form the complete Age|Recode® regenerative triad — the ideal protocol stack for medspa, integrative, and longevity-focused clinical practices.

MANUFACTURING & QUALITY

|-------------------------|---------------|------------------|------------------------------|

REBALANCE™

Brain Health, Stress & Cognitive Support

Glutathione · Anserine · Cerluten A-5 · Magnesium L-Threonate · L-Theanine · Licensed Clinicians Only

REBALANCE™ supports neurocognitive performance, synaptic resilience, and antioxidant restoration through a synergistic blend of five clinically-researched compounds. Its staged delivery architecture enhances neurotrophic repair, redox stability, and membrane signaling — ideal for practitioners addressing cognitive health, neuroinflammation, and stress resilience in their patient populations.

CLINICAL INDICATIONS

- Cognitive decline
- Oxidative stress burden
- High-stress cognitive environments
- Neuroinflammatory states
- Post-concussion & neuro-rehabilitation
- Sleep quality & stress resilience

COMPOSITION PER CAPSULE

- Anserine — 250 mg
- Glutathione (enteric) — 500 mg
- Magnesium L-Threonate — 500 mg
- L-Theanine — 200 mg
- Cerluten A-5 — 2 mg

120-count bottle = 3-month supply
2 capsules nightly before bed
Cycle: 5 days on / 2 days off

FORMULATION HIGHLIGHTS

| Component | Dose | Purity | Release System | Stability |
|-----------------------|--------|--------|------------------------|-----------|
| Anserine | 250 mg | ≥98% | Immediate | 24 months |
| Glutathione | 500 mg | ≥99% | Enteric | 24 months |
| Magnesium L-Threonate | 500 mg | ≥97% | Sustained | 24 months |
| L-Theanine | 200 mg | ≥99% | Immediate | 24 months |
| Cerluten A-5 | 2 mg | ≥98% | Delayed / Micro-pellet | 24 months |

PHASE RELEASE ARCHITECTURE

| Phase | Component | Primary Action |
|-----------|-----------------------|--|
| Immediate | Anserine + L-Theanine | Fast neuronal antioxidant protection and calming |
| Mid-Phase | Magnesium L-Threonate | CSF magnesium elevation for synaptic support |
| Enteric | Glutathione | Protected GI delivery for full absorption |
| Delayed | Cerluten A-5 | Sustained neuropeptide signaling and neuronal repair |

MECHANISTIC INSIGHTS

| Anserine | Glutathione | Mag. L-Threonate | Cerluten A-5 |
|---|--|--|--|
| Protects neurons from oxidative glycation damage. | Restores intracellular antioxidant defenses and depleted GSH reserves. | Increases CSF Mg ²⁺ and improves memory | Promotes neuronal repair and neuropeptide synthesis signaling. |

parameters and synaptic plasticity.

SYNERGISTIC PAIRING Pairs with REVIVE™ for cellular energy support and RECOVER™ for systemic recovery. Together all three form the complete Age|Recode® regenerative protocol — the ideal clinical triad for medspa, integrative medicine, and longevity-focused practices.

THE AGE|RECODE® COMPLETE CLINICAL PROTOCOL

All three oral formulations are designed to work synergistically across recovery, energy, and cognition — the three pillars of regenerative medicine. Available exclusively to licensed medical spas, physicians, integrative practitioners, and approved wholesale accounts through AgeREcode®.

RECOVER™

BPC-157 · GHK-Cu · Carnosine

CELLULAR REPAIR & ANTI-INFLAMMATORY

Accelerates tissue recovery, reduces inflammatory burden, and enhances post-procedural healing through coordinated angiogenic, collagen-modulatory, and antioxidant pathways.

1 capsule AM · 60ct / 3-month supply

REVIVE™

NAD+ · SLU-PP-332 · 5-Amino-1MQ

ENERGY, METABOLISM & CELLULAR POWER

Elevates metabolic capacity, supports mitochondrial biogenesis, and mimics exercise-like molecular signatures for metabolic resilience and sustained energy output.

1 capsule AM · 60ct / 3-month supply

REBALANCE™

Glutathione · Anserine · Cerluten A-5

BRAIN HEALTH, STRESS & COGNITION

Supports neurocognitive performance, synaptic resilience, and antioxidant restoration through staged multi-compound delivery architecture.

2 capsules PM · 120ct / 3-month supply

ALSO AVAILABLE — PROFESSIONAL TOPICAL SKINCARE

GHK-Cu + SNAP-8 Advanced Multi-Peptide Serum

Anti-Aging · Firming · Repairing · 1.0 FL. OZ. (30 mL) · Use Daily AM & PM

The only clinician-grade topical combining copper peptide collagen remodeling with SNAP-8 neuromodulatory smoothing. Ideal standalone or bundled with procedure kits for clinical dispensing programs and patient take-home protocols.
